Accessories:

Smart phone adapter

Most smartphones are easy to connect using the „SM” adapter

Mounting kits for examination chairs

For example: the installation kit for the Lemi Gyno type chair. We have mounting kits for many types of chairs. For other types of chairs, we make individual parts based on a survey.

Universal mounting kit and unique solutions:

In many cases, we come across an examination chair that does not have a pre-designed mounting point. In this case, it is unique solutions must be applied. Based on our many years of experience, we offer mounting bars and stocks. The installation is always preceded by a preliminary assessment.

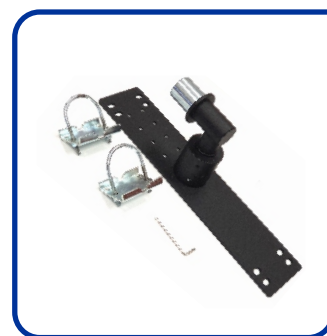

Mounting kit for Ritter 204/Promotal examiner chair

Mounting kit for Lemi Gyno examiner chair

Mounting kit for Schmitz-Söhne examiner chair

Universal mounting kit for rod or wall
